

1. Factory Production Control (FPC)
2. Initial Type Testing (ITT) and Manufacturing Manual
3. Production of Labels and Declaration of Conformity

Certification introduced by the European Commission to ensure that the windows and exterior pedestrian doors satisfy the communitarian norm.

Compulsory as of February 2010.

Without the CE label can not sell windows or exterior pedestrian doors from this date.

The only one responsible for CE marking is the manufacturer of the frames. However, aware of the technical effort and training that is required for this rule, ANICOLOR put in place the necessary means for the installers of the products can getting started the CE marking.

CE Counseling Departament
